PHOENIX BOULDER WALLS

The construction of boulder, sandstone and retaining walls from Brisbane to the Gold Coast.

We are a full-service earthworks and design/build company, **providing over 30 years of experience.** Phoenix Boulder Walls' goal is not only to design and build your unique rock wall, but to lay the rock, rocksolid so that it will look impressive and last for many years to come!

We can turn that uneven ground into a quality area providing you with more space to entertain all year round.

Our excellent reputation and long list of satisfied clients attest to our superior craftsmanship, attention to detail, honesty and integrity whilst providing excellent service, at an excellent price. As a result, a high percentage of our business is from repeat customers and referrals.

The team at **Phoenix Boulder Walls** are committed to attention to detail and will discuss any ideas and needs you may have.

Boulder walls will increase the value of your property by thousands of dollars!

Natural rock walls are chosen by designers and renovators because they last forever and have no risk of being attacked by termites!

Rock Retaining Walls

We offer the best quality materials in bushrock and sandstone. Our exclusive quarry offers the best colours, textures and sizes of rock at reasonable prices.

Our walls meet Council standards and you will be rewarded with adding value to your home, business or industry, whilst gaining more space, excellent drainage abilities, and an eye-catching addition to your home or business.

Phoenix Boulder Walls offer excellent service, as we oversee the entire wall building process, from start to finish. We use our own quarrying operations and the rocks are delivered to each site by our own fleet of trucks. Our team are qualified professionals and use the most up-to-date equipment and techniques available.
